WE publish this week officially, in an extra edition of this paper, the quarterly report of the Chief Engineer of the San Francisco Fire Department.

## Answers to Correspondents.

W. B. H., SACRAMENTO.—Your letter of 2d inst, has been received. We cannot possibly at this moment, comply with your request. We have endeavored to a great many ways, but our recent indisposition precludes it entirely. We will call upon you next week in propria persona, and probably in us something may be effected.

The Mountain Democrat.

An interior editor "pitches into" the FIREMAN'S JOURNAL, of this city, in the following savage manner:

The last number of the FIREMAN'S JOURNAL has but undutiful indignation. It does much to say on any subject, and the little it does say don't amount to much. A fact so transparent and irrefutable is patent to every reader of that dull sheet; but it surprises us a little that the egotistical editor should boast of his own stupidity.

Mountain Democrat.

We saw Boruck "popping at the bull's eye," in a shooting gallery, the other day. We half suspect he intends dropping his country cousin in his track. The fellow almost deserves it.—Golden Era.

The article which called for the pleasure of the Era, was written upon us because we dared to characterize the speculators at the Mint, as thieves and the Democrat being a political paper could't stand it.

The Era is mistaken decidedly. It was some other good looking fellow "popping at the bull's eye," we have too much pity for our country cousin, to drop him so unpleasant a place as his tracks. If we did use a weapon upon him, it would be one "foot" long and an present suffering, as we are from rheumatism, we do not know that we would even use it, as it would wrench us horribly to kick at nothing.

MAGUIRE'S OPERA HOUSE.—We are gratified in being able to announce that Miss Annette Ince, whose merit as an actress is of the highest order will commence an engagement at Maguire's Opera House Monday evening next, supported by the best combination of histrionic talent yet presented in San Francisco, the whole under the direction of Mr. George Ryer. In the company we recognize the names of two of our best favorites, Mrs. Judah, and J. A. Smith, whose re-appearance upon the stage will be a source of gratification to their many friends and admirers.

On Monday evening next the play of "Love," will be presented. Miss Ince as the coquette. This is one of her best impersonations and all who admire fine acting and faultless reading should not fail to witness it.

During the engagement of Miss Ince, the management will present several new and attractive pieces among them Tom Taylor's "Eliza," the former affix to my signature. I. L.

Mr. Maguire has engaged the services of Mr. Courtais and Miss Crattan from the Drury Lane Theatre. The former is a talented light comedian and an excellent singer. Miss Crattan's forte lies in her impersonations of chambermaids, &c. and is said to be a very fine actress. They both come well recommended, and will shortly make their appearance.

We understand that Miss Charlotte Cushman, has been engaged and will appear at Maguire's Opera House, sometime in March.

Fires and Alarms.

Nov. 5th, 9 A. M.—Still alarm; leaking of gasometer in basement of Bradshaw & Co.'s, corner of California and Sansome streets; no damage. Nos. 3, 5, and 7 on the ground. No. 3 in service.

Nov. 5th, 11 A. M.—Alarm from 14' bell; rubbish on First street; no damage. Portion of the Department out.

Nov. 6th, 22 P. M.—Alarm from 9' bell; fire in frame building on Dupont street cor. Green; damage trifling. Portion of the Department out.

MARION RIFLES.—At an election of the non-commissioned officers of the Marion Rifles, held on Thursday evening, the following named gentlemen were elected for the ensuing year: First Sergeant, Samuel W. Newhall; Second Sergeant, J. W. McCormick; Third Sergeant, John Corbett; Fourth Sergeant, M. D. Abdenor; First Corporal, Thomas Callan; Second Corporal, W. P. Hallett; Third Corporal, Thomas Cahill; Fourth Corporal, S. L. Thaler.

Now in regard to the taxation of Insurance Companies for the support of the Charitable Funds of

the Fire Departments of the State, the great objection to it is, that the Insurance Agents don't care the snap of a finger for it, because they will increase the premiums for insurance, which the people will be compelled to pay.

So far as the members of the Fire Department of this city are concerned, they do not desire this proposed tax on the Insurance Companies to be levied, for the increase of their Charitable Fund, and the reasons are obvious. The Fireman's Charitable Fund of this city now amounts to \$12,000, the interest of which alone amounts to \$6,200 per annum. The calls for relief upon it, are very few; since last March bus \$850 was paid out. The natural increase of the Fund will be amply sufficient for all demands made upon it.

On April 22d, 1850, a law was passed by the Legislature, which limited the amount of property to be held by any Charitable Institution, and the income arising therefrom to \$10,000 per annum. The 7th of May 1853, that law was amended, allowing an income of \$20,000 per annum. That provision is still in force, and to draw any larger income than the sum last named, a special act of the Legislature will become necessary. In few years from this period, therefore, allowing \$2,000 per annum for relief, which we believe will not be required in any one year, the Trustees of the Charitable Fund will be compelled to apply to the Legislature for a special act to allow them to draw the income to be derived from it.

It will be argued by some that the larger the Fund, the better it is for the purposes of the organization. That might be applicable to a Department as large as that of New York, and where the liability to injury is one hundred per cent greater than either in this or any other city in the State. The Department of this city, we are confident will not for many years be increased, and we think the principal Departments of the State, will remain as they are for some time, and, therefore, there is no reason why the Charitable Fund of this city, at any rate, should be added to as is designed by the Sacramento Board of Delegates.

There are nine Insurance Agencies in this city; three of which have branches elsewhere. They pay \$1600 per annum license, and we suggest that instead of a law being passed to tax them a per centage on all policies issued, that the present law compelling them to pay the license be so amended as to admit of the paying of the \$1600 in the Charitable Funds of those Departments desiring it.

Two communications appear in the Union of this morning; both in reply to one from "An old Fireman," (fogy would be more apt.) They in a measure endorse the suggestions of the above mentioned "Fireman." What, gentlemen, do you want to change our present arrangements for? Was the Department ever so efficient a state? I think I but echo the feelings of two-thirds of the Department, when I say, "let well enough alone," unless some plausible reason can be given for a change.

No. 3 lost; one of their volunteers in the shape of a dog "Lion," last week. He was a fine, long-haired Newfoundland, but one of his legs was out of joint. I always heard him called "Towel" before, arising from a habit the hose boys had of wiping their hands upon his hair, when the hose was muddy.

Some curiosity has been exhibited here, as to what has become of the answers to his communication, that Mr. Holland, in his card of the 8th inst., promised to publish as soon as received.

The only alarm this week was false; at 8 P. M., 26th inst., from 3d bell, 3d street, from K to P, was the race course this time.

Being very busy yesterday, I was too late for the boat; but will send to-day by the Alta Express, who promise to deliver it to-night. No. 3 was out on extra duty last night, pumping out new cistern corner 10th and G, which proved to be leaky.

Another communication from "an old (fogy) friend," appears this morning, in the Union. If the writer could only tell us where reform is needed or what his ideas would be beneficial to the Department, there might be some pleasure in reading his effusions. But senseless twaddle about reform, when there is none needed, will always excite a smile of derision.

Truly yours,  
J. LINGOLAY,  
Ex-Chief Sutler F. D.

LINGOLAY TO AN OLD FIREMAN.

Editor Fireman's Journal.—Not having sufficient material from which to manufacture my usual letter, allow me to answer the communication of "An Old Fireman," which appeared in your last issue.

Since I have been a member of this department, some two years more or less, I am willing to compare my record with his, or that of any other fireman, young or old,

If I was "off the track" in my surmises, I am on the track of some feather-bed firemen, who expect to obtain their exempt certificate next January. I have an idea of publishing their names soon, and judging from the style of writing, as well as from some absurd suggestions of his that he was one of that stripe. I intimated as much in my letter. I will take his word that I was mistaken, and retract any expression capable of being construed into a doubt of his activity, although his banner to me, to make an object for him to prove his assertions, conveys the impression that he did not expect to be believed.

As to the number of alarms that he has missed, judging from his style of enumeration, I should say that it would puzzle one, if not two Philadelphia lawyers to arrive at the correct result. One thing is very plain though, that he never paid for more than one in six and a half years.

I admit having "barked up the wrong tree," but before he succeeds in any of his purification schemes, such as disbanding companies, reduction of salaries, etc. I hope he will bark himself horse.

He challenges me to muster courage enough to over haul (Cuttle) his article published in the Union of 22d ult.; my letter of last week, which was sent too late but will probably appear this week, contained some remarks touching the subject, he also referred to F. D.'s communication in last Saturday's Union, as endorsing my views. Asking pardon for trespassing on your valuable space, I remain,

J. LINGOLAY.

## From Our Regular Correspondent

SACRAMENTO, Sept. 20th, 1857.

Editor Fireman's Journal:—Unless something turns up pretty soon my letter this week will be never rains but it pours," holds true in its reverse sense at this time. Two weeks ago, my ideas neit Jong or interesting. The old adage that "it flowed faster than I could write, but now I have a idea that I can make out of the present dearth of fire talk, that will prove interesting. Speculation has been rife as to Mr. Lingolay is I have heard several prominent members of the Department named in my presence, but not once have I received credit for my efforts.

So far as the members of the Fire Department of this city are concerned, they do not desire this proposed tax on the Insurance Companies to be levied, for the increase of their Charitable Fund, and the reasons are obvious. As I wrote last week, No. 3 requested the Chief to call a meeting of the Foremen, for the purpose of bringing Mr. Holland before the Board of Delegates, to ascertain certain charges. The Chief did as he was instructed and the Foremen met at the Warden's Room on Monday evening. Capt. Cummings of Alert H. & L. 2, was called to the Chair. All present except Houseman, Fitch and Rowland; when nothing appearing for them to act upon, they adjourned sine die. I learn that 3's have proof, and, that at a meeting of their Company, held on the following evening, they authorized their Secretary to bring the Union of Knickerbocker Engine Company No. 3, Mr. JAMES E.
